STAINLESS STEEL CATH LAB TABLES

STAINLESS STEEL

ACERO Oscor's new line of stainless steel tables addresses a wide range of laboratory and cleanroom requirements, while providing corrosion proof performance ensuring long life and maximum value for your investment.

ACERO Stainless Steel Cath Lab Tables Features:

- Fixed or adjustable table height-from 34.5" to 43.5"
- Strong durable construction
- Great for the cath lab, hospital environment, lab, cleanroom, office and commercial kitchen
- Built from medical grade 304 L stainless steel
- Optimum load bearing performance, up to 400 pounds
- Heavy duty casters with 4 position swivel lock and side foot brake
- Ergonomically rounded 180° edges throughout
- Easy to assemble in minutes (assembly available upon request)
- Rail accessory option: Standard U.S. mounting rail measures 11/8" x 3/8" and allows the attachment of various surgical accessories including quick clamps, sockets, IV poles and more
- 5 year warranty

The ACERO Cath Lab Table can be customized to fit your specific needs.
