

Oscor's Angios® line of diagnostic catheters features a proprietary HD Braid reinforced shaft which allows for smooth advancement. At the same time, the sheath maintains its curve, allows for a high flow rate of contrast media injection, and has a soft radiopaque catheter tip to minimize vessel trauma. Oscor's Angios® diagnostic catheters are available in a variety of curves, sizes and lengths.

The "Angiography Convenience Kit" consists of a 3 Catheter Kit, a fixed core Guidewire L:150 cm OD: 0.035", and an Adelante® Sigma Introducer Set, which includes Dilator and Sheath, guidewire L: 50 cm OD: 0.035", Needle 18 ga and Syringe 10 cc. *Maximum Recommended Guidewire 0.038"*
